- Wine tasting kit
- Trip protection plan

THIS TRIP IS FOR YOU IF YOU LOVE

- Wine tasting and wine education
- Wine pairings with food
- Relaxed and friendly atmosphere to learn about wine
- Girlfriend getaway
- Learning something new

Don't know your malbec from your merlot? Wine Camp removes the mystery and replaces it with information in a fun setting. We immerse ourselves in every aspect of wine, from the land to your lips. Just outside of Yakima, Washington, in full view of snow-covered mountains, sit the Rattlesnake Hills premier wine area. No rattlesnakes, though, just good wine! Each day features different wineries with informative presentations on growing grapes, making and tasting wine and pairing it with food. A final night multi-course dinner is served in the tasting room of Two Mountain Winery. Must be 21.

ITINERARY

Day 1 - Arrive at Yakima airport and transfer to our Zillah hotel. Tonight we get acquainted over a casual and fun Mexican dinner.

Day 2 - First day of school. One of our first presentations includes "how to taste." See, we have already taken away some of the mystery. Savor a rustic picnic in the vineyard with your new knowledge. Afternoon gets even better as we build on what we have learned. In the evening, we shower off the dust and head out for a special dinner at a local restaurant with a long wine list.

Day 3 - The learning continues and we share another lunch al fresco. Be sure to pack the sunscreen. The warm, dry air melts your stress away. Well, that combined with the wine. Tonight is graduation. We are hosted by the Rawn brothers at Two Mountain Winery. The entire menu is planned to pair local specialties with fine wines.

Day 4 - In a purple haze we must return home. We are certain you will want to make this an annual event. Now you are a part of the family.

BECAUSE WOMEN TRAVEL DIFFERENTLY THAN MEN.
